things that most affect the safety of the community are the most important

Could let some employees go because not doing job. lot of waste in the county
not close to any ditches
cut wages
the outer parts of county does not receive funds that they need
Mosquito control is important as far as health issues are involved, there's not a lot of maintenance
to do on the pond, and if taxes are going up why are services being cut.
roads still flood his streets
the holding pond goes her way and doesn't like that problem
Traffic control from one light to another could be better, too many people running red lights and it's
not being corrected.
more traffic control

- LONG RANGE PLANNING
- ZONING AND DEVELOPMENT REVIEW
- ENVIRONMENTAL PERMITTING

didn't know any

inspectors not qualified

never use them

Do not good job about long range planning. Should have already been done. Terrible zoning problem. Water should top priority. clean up water and get rid of chemical dumping

inspections are not done properly - they are done from the car from the road

don't know much about it

they suck

sometimes they do their job and sometimes don't - about half way

Many cases overview plan is tinkered with too much. Building dept does not know where they are going. Plans are too vague.

building inspections need to be improved

too much of a hinder on environment

shouldn't be over regulation- harder to develop

road planning is important

take care of the permit where there is paper or any other dumping into the bay and the creeks

they denied the people not builders

environmental is not important

she is in real estate so she knows the importance

Plans and visions are intact, but that's the only thing they are.... plans and visions. if the county does do what they plan, his property value goes up

Don't really know.....

no

doesn't think the environmental permitting is enforced

clean the county up

lack of bringing in changes

building inspections should be done more often for safety

just needs improving

Very lacking in getting things done, there's no direction to go in and it is just a big mess with no leader ship. they are worried about the wrong things

building inspections not fair

I think all buildings should be safe

overboard with environmental issues

the county doing a good job

all are miss used

city sewer is very important to her in that area she is in

extremely important to plan and reinforce and environmental very important

commissioner has bought a lot of things for great plans in the future, but nothing ever becomes of the property they buy

Wants see the building inspections improve..... Rather not pay off inspector..... pay them good wage so they'll be far and accurate.....

no

don't know anything about the services

no

They always do a good job. Had no rating on zoning.

don't like restriction for what you can and can't put on your property

Building inspections are not done like they should be. seen too many cases have slipped by inspectors

need to think about the future

recycling should be less

stronger environmental policy

environmental permitting is important because the county environment is horrible

no

stop spending so much time on the environment and get jobs

these should be the priority of the county

I feel like they are good

not following through with long range planning

no

need improvement

no

plan for long range, don't follow through

I think the home and property owners should do what they want with their own land the rights of land owner precede the rights of county

Over doing it on the environmental permitting.... gulf power....

no

no

no

would like to see the county grow

no

Buildings need to be in good shape. long range planning needs to be improved

homeless shelter is in middle of downtown creates traffic problems

very concerned about the water after the bad report

DEP and EPA does that county should not give finding towards that

more recycling

no

no

The zoning is important.

no

all important

county commissioners deciding whether it should be rezoned just for votes

no

no

no

these are all things that improve our infrastructure

no

haven't dealt with these

no

no

don't lock into long range planning

they have ran it into the ground

no

need to inspect buildings, they get paid to do zoning and development review but they don't do it not so much regulation

Zoning and development review should be done by someone in a different area. environmental permitting should be done by the public

Don't follow up with master plans. Don't make plans if not going through with it.

it need to be a restriction zone about the beach

environmental is very important but too many radicals going too far

Environmental is the most important thing for being a tourist area, needs to keep the balance between the community and tourist.

no

its 100% political

needs to do something about environmental permitting

no

county should maintain the county but not get in way of citizens

the county has done great job with long range planning

need a good planner

all very important

get carried away with environment on individual basis

they do a good job

they don't care about the poor

most of the area is either agriculture

not enforcing it

what's the point to have a permitting

Q 18: FINALLY, REGARDING THE FINAL COUNTY SERVICE OF THE CORRECTIONS OFFICE; ARE THESE SERVICES CRITICAL FOR FUNDING, DOES THERE FUNDING MATTER MUCH TO YOU OR ARE THEY JUST NOT IMPORTANT AT ALL? THE 1-5 RANKINGS ARE IN THE FREQUENCIES AND THE COMMENTS TO LIST OF THE FOLLOWING SERVICES ARE BELOW:

doesn't have any around you

doing a good job

wonderful that gardens are being done by prisoners and raising their own food

keep bad people in jail

the need more road crews

Updated all the time.....

Non violent criminals - it's important to get them back into community. programs needed

she would like to see them on her road

community corrections programs need to be revamped

The programs are all good.

Don't believe the corrections office should control community they should go after the criminals. they should protect

too much money goes into the prisoners

if in jail don't pay them, they should pay for themselves. make sure the road workers don't run off

corrections are important

grow own food and road prison clean up is important

everyone needs a break

no

trying to keep track of prisoners, people come to jail shouldn't want to go back, and should behave themselves

the prisoners should be doing more to save the state money make them work

need to get the prisoners to work and clean the streets

little bit better on the code enforcement

as many criminals that are in that community there needs to be a good corrections service

road prison is great to keep the roads clean of litter

personal view

Code enforcement providing it's fair across the board. If enforce for one, enforce for all.

it is only important to have code enforcement if they take care of the code problems

should have more patrol on the trash

very interested because of son being incarcerated taking care of prisoners is just important they are still our citizens

doing a rather good job with prisoners picking up garbage

correction officers do a great job

they should have more prisoners cleaning the road and maintain the state beaches also prevent fuel for fires

don't think prisoners are used enough to much trash

people stay in jail that need to be in there

County could benefit from the labor of the inmates.

need help in that area

Believes that people have to take responsible for their actions.

extremely important for vocational training

not happy with how they handle things

Instead of not working they need to be out on the road and working more, there are several things that can be done

there is a lot of violence, crimes and drugs it needs to be enforced

no

anything that will help reduce crime and stop it from escalating is good

no

does not have opinion

far too much money put in comfort of prisoners

no

they has the knowledge to what is taking place in this area

no

I think these programs are very needful

the more resource they have the more work that can be done

no

no

need improvement

no

no

inmates should be cleaning up to work off their time do more service to get good instead of us paying for this
no excess for prisoners

need rehab action so the children who commits crimes can be rehabilitated instead of spending life in prison
no

no

Doing fine. Put them in jail and let them out and they do it all over again.

a lot of improvement

should double the service of the road prison because it would be cheaper to have the prisoners take care of the park

he knew a correction officer and he was a thief and stole his property

no

code enforcement needs better enforced

More prisoners to do work....

no experience with these

no

no

community corrections program needs to be there

need to not leave people in jail, they should work on county things, instead of sitting in jail, they should be taught to

When a person is nuts and are being observed and say there is nothing. Don't feel that is right.

need better fishing facilities

no

need more police patrol and check the area

Generally instill the notion that the tax payers are the ones the county is serving. Far too many county employees think like bureaucrats and need to have more personal responsibility.

During Ivan I lost my condo and it took 26 days for the county to let us come back in and by that time

everything was mildewed think the county could have done a better job.

No good control in development. Now the county is over developed.

no

More public restrooms. Create more jobs even for people who don't have high school diplomas.

Be more specific on your questions. Give the surveyor a handout on the meaning of questions.

Dissatisfied with leader ship sucks//they don't lead or get anything done being corrupt if the community does not trust there are no expectations they don't do anything//I am trying to change

When the county code department states that they can't come on your property, they do it anyhow and not fair. They're not being enforced to clean certain areas. If one has to clean up something, then all should have to as well.

no

Need to improve services like maintenance programs. and you can't rebuild if you don't take the old down, so the county needs to take down the old buildings to rebuild

no

Needs the tire picked up across the street in front of her house. More sheriffs' response to and dawn to dusk light in more public access.

I have been sick and so I filed for disability. A judge from Alabama and he told me that it didn't bother him that I was going to die he said that everyone was going to die. He was very rude.

wish the commissioners would try hard to extended ties to the home schooling,

hard working men need help to

county commissioners doing more planning

People in prison should work harder and should not be getting degrees coming out to be doctors.

Said I was very professional.....

The county commission are a disgrace they are the main reason for the problems we are having. Civilian security should be accountable the same way that county, state, and city law enforcement are accountable for rules and regulation. handicap parking should only be for the handicap and handicap tags should have id card and increase restrictions

help the seniors more there withholding more taxes not able to afford things that are needed

no - they are doing good job

Government. Needs stop sitting and debating what to do and get actions done. There are so many people driving without license and insurance and nothing is being done. The community will not improve until something gets taken care of.

Bring more jobs in the county like opening facilities. Did not take advantage of opportunities that were offered.

no

no

next time try to do survey online so people would have time for answers

Family and children service employees are very rude. They won't listen, won't believe him. They should all be fired because they are there just for a pay check.

Disability needs a lot of improvement.

Take care of downtown better..... Parking is hard for people who work down there.....

New building was wasteful with money and space. Remember that commissioners are representing citizens and quit wasting money on frivolous building decorations.

no

think we need to read rules and enforce them don't make decisions without reading rules and laws not knowing the outcome will be

Thinks that the county needs to get jobs or everyone over 18 is going to leave. They depend on the retired military that the pay scale is low; people should be able to make a decent living.

Would like to see the commissioner do a better job.....

The fire service is overdoing their job, waste of money. The donations to outside agencies should be zeroed out. And the county should cancel contributions to navy museum; take care of government services instead of outside agencies. more commissioners

Need more affordable homes. Give to the needy more. Help single parents out more. More jobs and better pay.

The only thing I like them to move toward aggressive marketing for outside the county. The city and county needs to quit arguing.

something in the county are just over done

There wanting to get the county to help with fixing the north end county roads, it needs to be paved.

They have tried to get a hold of somebody to help with that but no response.

Regarding consolidation of functions: need a board to oversee user fee based functions and a separate board for totally taxed based functions. So citizens know where money is going.

work better together

no

very pleased with county trying to make a difference

feel like life is being more and more controlled by county government very depressing

The county tries hard but the communication is a problem. The people in charge need to remember that it's the community are what matters first and not that politics. People need to come first.
